

MultiStrut

G06-01-00-01

Steel webs for the easy manufacture of parallel timber floor joists and rafters.

These Pre-punched and formed galvanised metal webs are:

Ideal for the fast, reliable manufacture of parallel timber joists and rafters.

Come in a variety of depths.

Ideal for builders wanting to easily run services like plumbing, electrical and air conditioning through the floor space.

MAXIMUM CLEARANCE BETWEEN WEBS

The open web design enables building services such as plumbing, electrical, air conditioning to be run between the chords without the need for drilling, notching or cutting.
